

Announcing the

BIOTECH

pH CONTROL SYSTEM

- **VERSATILE** — will control any on-off electrical unit — pumps, valves, feeders.
- **DUAL CONTROL** — Simultaneous acid and base control to 0.1 pH unit.
- **COMPACT MOBILE** — 18" x 24" wheeled cart.

The BIOTECH pH CONTROL SYSTEM continuously controls and records the pH in any reaction unit from laboratory bench to plant scale. Unique design features provide flexibility, economy and superior performance.

- Proportional-type control action to avoid overshoot.
- Miniature recorder with pressure sensitive paper for continuous strip chart record.
- Easy maintenance and service through modular plug in units and simplified wiring.
- Rugged construction — heavy steel cart, stainless steel operating surface, locking rubber wheels.

For more information write:

To help you realize the full potential of your pH Control System, BIOTECH provides a full range of accessories and services.

- Working drawings for all types of electrode installations.
- All standard electrodes, jacks and adapters at standard prices.
- Specially designed feed units for intermediate and small scale operations.
- Metering pumps.
