EX OFFICIO

- Orville Wyss, President** (1964-1965)..... University of Texas, Austin
R. D. Housewright, Vice-President (1964-1965)..... Fort Detrick, Frederick, Md.
Philipp Gerhardt, Secretary..... The University of Michigan, Ann Arbor
H. B. Woodruff, Treasurer..... Merck & Co., Inc., Rahway, N.J.

Published bimonthly by the American Society for Microbiology. Manufactured and distributed
 by Waverly Press, Inc., and The Williams & Wilkins Co., 428 E. Preston St.,
 Baltimore, Md. 21202, USA

Subscription price \$14.00 per year, single issue \$3.00.

Second-class postage paid at Baltimore, Md. Made in the United States of America.

APPLIED MICROBIOLOGY

Applied Microbiology is a publication of the American Society for Microbiology. As a companion publication to the *Journal of Bacteriology*, *Applied Microbiology* accepts manuscripts and notes from the same broad spectrum of microbiological sciences as does the *Journal*, except that content should be of an applied nature. Notes should not exceed 500 words. Contributions are solicited in such fields as antibiotics, antimicrobial agents, chemotherapy, and other applied aspects of medical microbiology; food preservatives; sanitation; agriculture; animal and plant diseases; space science; and other areas involving the use or control of microorganisms. Manuscripts should be concerned primarily with the microbiology or microbiological biochemistry of the processes under consideration or with engineering aspects that influence microbiological processes.

Applied Microbiology is issued bimonthly (January, March, May, July, September, November), one volume per year.

The *subscription price* is \$14.00 per year in the USA; \$14.50 in Canada; \$14.75 elsewhere. Single numbers, when available, are \$3.00 in the USA, \$3.25 elsewhere.

To avoid a break in your series, subscriptions should be renewed promptly. The publisher cannot guarantee to supply back issues on belated renewals.

Members of the American Society for Microbiology may receive *Applied Microbiology* as part of their dues. Renewals and new subscriptions begin with the first issue of the year when the subscription is received. ASM members should direct inquiries concerning subscriptions, lost copies, reprints, change of address, and other business matters concerning *Applied Microbiology* or the Society to the American Society for Microbiology, 115 Huron View Blvd., Ann Arbor, Mich. 48104. Nonmembers of the Society should write to The Williams & Wilkins Co., 428 E. Preston St., Baltimore, Md. 21202.

INSTRUCTIONS TO AUTHORS

Manuscripts should be prepared following the recommendations in the *Style Manual for Biological Journals*. An abstract must be submitted with each manuscript except Notes. Instructions to authors published in the *Journal of Bacteriology* apply to manuscripts submitted to *Applied Microbiology*, with the following exceptions:

Correspondence—Two copies of manuscripts should be submitted to George M. Savage, Editor, *Applied Microbiology*, The Upjohn Co., Kalamazoo, Mich. All material should be sent by first-class mail in flat form—not folded or rolled.

Applied Microbiology cannot assume responsibility for manuscripts.

General Policy—Manuscripts are accepted, subject to editorial review, from all who are interested in the field of microbiology.

Except for good reasons, microorganisms should be designated by the names appearing in *Bergey's Manual of Determinative Bacteriology*, 7th Edition (1957), or Ainsworth & Bisby's *A Dictionary of the Fungi*, 5th Edition (1963), and the rules of nomenclature presented in the *International Code of Nomenclature of Bacteria and Viruses* (1958) should be followed. Nomenclature of chemical compounds should conform with "Chemical Nomenclature," *Chemical Abstracts* 56:3N-98N, 1962 (Introduction to Subject Index; reprints are sold by the Chemical Abstracts Service, The Ohio State University, Columbus, Ohio).

Reprints—Reprints are not supplied unless ordered and purchased by the author. A table showing cost of reprints and an order slip will be sent with the proof and should be returned without delay.

Page Charge—A page charge is assessed for publication of sponsored work in *Applied Microbiology*.
