

Cytochrome oxidase...phenylalanine deaminase...urease...lysine decarboxylase: days can now be shortened to hours, hours to minutes, in performing these important enzyme reactions of microbiology.

PathoTec Reagent Systems save time and increase accuracy. Coated with pre-measured, standardized reagents, includ-

ing a substrate and a color indicator system, they eliminate special preparation of reagents or media. Always ready for use, PathoTec Reagent Systems are indefinitely stable when stored in refrigerator and protected from light. Available as PathoTec-CO, PathoTec-LD, PathoTec-PD and PathoTec-U.

# PathoTec™

reagent systems

**aid in rapid identification of certain gram-negative bacteria**

GENERAL DIAGNOSTICS Division

Warner-Chilcott Laboratories, N.J.

# Antimicrobial Agents and Chemotherapy —1965

Proceedings of the Fifth  
Interscience Conference on  
Antimicrobial Agents and  
Chemotherapy—IVth  
International Congress of  
Chemotherapy

WASHINGTON, D.C.  
17-21 October 1965

Sponsored by the American Society for Microbiology  
and the  
International Society of Chemotherapy

Reports of basic research on the antibiotics alazopeptin, anthelvencin, azomycin, blasticidin, capreomycin, chantalmycin, circulin, erythromycin, everninomycin, fusidic acid, gentamicin, kasugamycin, lincomycin, moenomycin, nogalamycin, olivomycin, rifamycin, sparsomycin, sugordomycin, and vernamycin

Clinical evaluation of ampicillin, cephaloridine, cephalosporin, cephalothin, dicloxacillin, erythromycin, gentamicin, hamycin, hetacillin, lincomycin, methacycline, methicillin, nafcillin, oxacillin, paromomycin, and spectinomycin

Symposia on Chemistry of Antibiotics, Biogenesis of Antibiotics, Chemotherapy of Mycobacterial Diseases, Clinically Important Antibiotics as Biochemical Tools, and Cancer Chemotherapy

Communications of interest to microbiologists, chemists, pharmacologists, biochemists, clinicians, and pathologists

A valuable reference for laboratories and libraries

To: AMERICAN SOCIETY FOR MICROBIOLOGY  
115 Huron View Blvd., Ann Arbor, Mich. 48103

Please enter my order for \_\_\_\_\_ copy(s) of *Antimicrobial Agents and Chemotherapy—1965* at \$15.00 per copy.\* (Available in Europe from the H. K. Lewis Co., Ltd., London.)

I also wish to order†:

\_\_\_\_\_ copy(s) of the 1964 volume at \$15 per copy.

\_\_\_\_\_ copy(s) of the 1963 volume at \$12 per copy.

\_\_\_\_\_ copy(s) of the 1962 volume at \$12 per copy.

\_\_\_\_\_ copy(s) of the 1961 volume at \$10 per copy.

Bill me.  Payment enclosed.

(Make checks payable to American Society for Microbiology.)

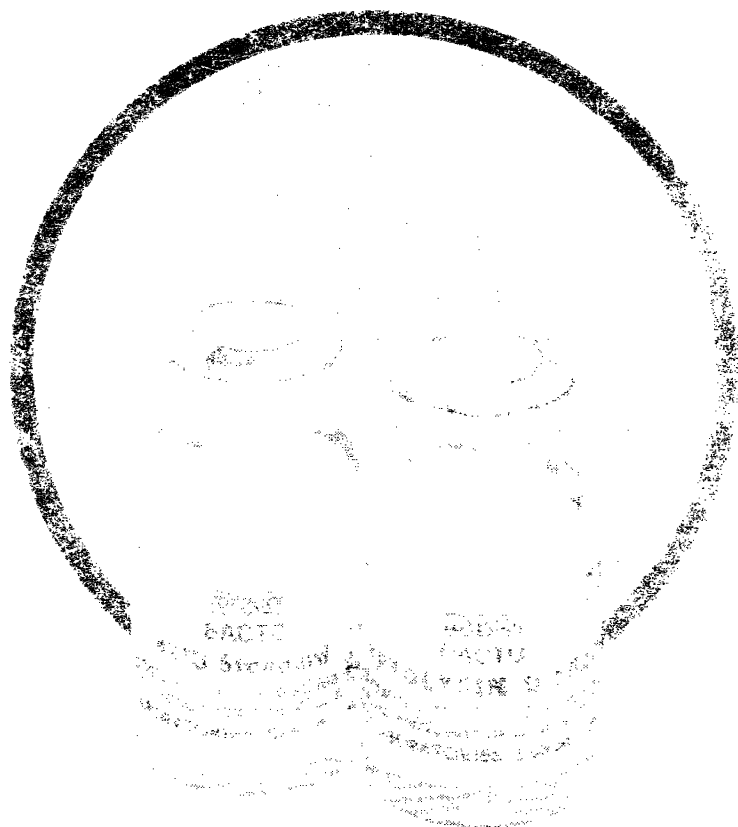

NAME \_\_\_\_\_

ADDRESS \_\_\_\_\_

\* Members of ASM may purchase the current volume for \$10, if payment accompanies order.

† Members of ASM may purchase back volumes at a discount of 50%, if payment accompanies order.

# WORLD ACCEPTED for the determination of ASTO

## BACTO-STREPTOLYSIN REAGENT and BACTO-ASTO STANDARD

Prepared by the World Health Organization, Geneva, Switzerland  
by the Todd & Owen Laboratories, Inc., Berkeley, California

# DIFCO

2701 Rockledge Drive, Chicago, Illinois 60646

TRADERS

# COTTONSEED NUTRIENTS

GIVE YOU THESE ADVANTAGES

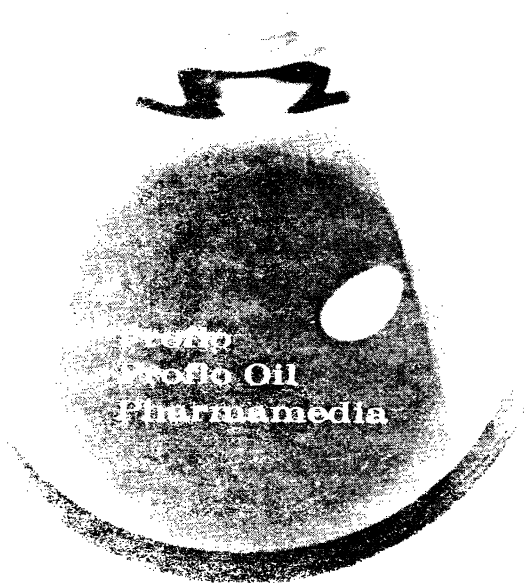

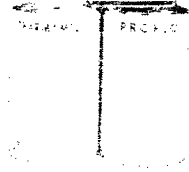

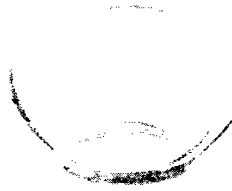

## INCREASED YIELD

Proffo Cotton Nutrients are the most effective cottonseed nutrients available. They contain the highest concentration of essential nutrients for cotton plants.

## PROFFO

## PROFFO OIL

Proffo Oil is a high quality cottonseed oil. It is the most refined and purest cottonseed oil available. It is the best for use in all types of cottonseed products.
