

# APPLIED MICROBIOLOGY

Volume 26

Contents for August

Number 2

## Clinical Microbiology and Immunology

Conditions That Affect the Colorimetric Analysis of Lipopolysaccharide from <i>Escherichia coli</i> and <i>Treponema pallidum</i> . PININA ZEY AND SALLY JACKSON.....	129
Dermatophyte Test Medium: Evaluation with Nondermatophytic Pathogens. I. F. SALKIN.....	134
Comparison of Several Laboratory Media for Presumptive Identification of Enterococci and Group D Streptococci. R. R. FACKLAM.....	138
Evaluation of New Urinary Tract Infection Screening Devices. WILLIAM A. CRAIG, CALVIN M. KUNIN, AND JANE DEGROOT.....	196
Erysipelas Serum Titration with Sheep Red Blood Cells Passively Sensitized with a Cellular Extract. GEORGE M. POOLE AND FRED T. COUNTER.....	211
Rapid Identification of the Taxon <i>Rhodochrous</i> in the Clinical Laboratory. K. D. STOTTMEIER AND MARY E. MOLLOY.....	213
Evaluation of the Improved Auxotab 1 System for Identifying <i>Enterobacteriaceae</i> . D. L. RHODEN, K. M. TOMFOHRDE, P. B. SMITH, AND A. BALOWS.....	215
Rapid Method for Detection of <i>Pseudomonas aeruginosa</i> on MacConkey Agar Under Ultraviolet Light. M. H. BRODSKY AND M. C. NIXON.....	219

## Virology and Viral Immunology

Airborne Stability of Simian Virus 40. T. G. AKERS, C. M. PRATO, AND E. J. DUBOVI.....	146
----------------------------------------------------------------------------------------	-----

## Food Microbiology and Toxicology

Filtration Methods for Recovering Enteroviruses from Foods. K. D. KOSTENBADER, JR., AND D. O. CLIVER.....	149
Production of Penicillic Acid and Ochratoxin A on Poultry Feed by <i>Aspergillus ochraceus</i> : Temperature and Moisture Requirements. C. W. BACON, J. G. SWEENEY, J. D. ROBBINS, AND D. BURDICK.....	155
Induction of Red Color Formation in Cabbage Juice by <i>Lactobacillus brevis</i> and Its Relationship to Pink Sauerkraut. J. R. STAMER, G. HRAZDINA, AND B. O. STOYLA.....	161

## Ecology

Mass Airflow Cabinet for Control of Airborne Infection of Laboratory Rodents. GERARD J. MCGARRITY AND LEWIS L. CORIELL.....	167
-----------------------------------------------------------------------------------------------------------------------------	-----

## Metabolism and Products

Methoxyhydroquinone, an Intermediate of Vanillate Catabolism by <i>Polyporus dichrous</i> . T. KENT KIRK AND L. F. LORENZ.....	173
Degradation of Methoxylated Benzoic Acids by a <i>Nocardia</i> from a Lignin-Rich Environment: Significance to Lignin Degradation and Effect of Chloro Substituents. R. L. CRAWFORD, ELIZABETH MCCOY, J. M. HARKIN, T. K. KIRK, AND J. R. OBST.....	176
Production and Purification of the Metalloprotease of <i>Bacillus polymyxa</i> . WILLIAM M. FOGARTY AND PATRICK J. GRIFFIN.....	185
Physicochemical Properties of the Native, Zinc- and Manganese-Prepared Metalloprotease of <i>Bacillus polymyxa</i> . PATRICK J. GRIFFIN AND WILLIAM M. FOGARTY.....	191
Viriditoxin Production by <i>Aspergillus viridi-nutans</i> and Related Species. E. B. LILLEHOJ AND M. S. MILBURN.....	202
Effects of Various Gases on the Survival of Dried Bacteria During Storage. BETTY J. MARSHALL, G. G. COOTE, AND W. J. SCOTT.....	206
<i>Pseudomonas oleovorans</i> Hydroxylation-Exoxidation System: Additional Strain Improvements. ROBERT D. SCHWARTZ AND C. J. MCCOY.....	217
Errata.....	221
