Applied and Environmental Microbiology (ISSN 0099-2240), a publication of the American Society for Microbiology, 1913 I St., N.W., Washington, D.C. 20006, is devoted to the advancement and dissemination of applied knowledge as well as ecological knowledge, both applied and fundamental, concerning microorganisms. Instructions to Authors are published in the January issue each year. *Applied and Environmental Microbiology* is published monthly, two volumes per year. The nonmember subscription price is \$70 per year. The member subscription price is \$17 per year. Single copies are \$6.00. Correspondence relating to subscriptions, nonreceipt of journals, reprints, defective copies, availability of back issues, and lost or late proofs should be directed to the ASM Publications Office, 1913 I St., N.W., Washington, D.C. 20006 (area 202-833-9680).

The latest in the popular annual series—
MICROBIOLOGY
1980

Editor: David Schlessinger

This new volume features the following important symposia and conferences of special interest to infectious disease specialists and applied microbiologists:

- Endogenous Mediators of the Host Response to Endotoxin Host Response to Viral Infections Interferon: Induction and Action Comparative Mechanisms of Viral DNA Replication Integration of the Viral Genome Hybridomas DNA-Surface Interactions Aquatic Microbial Ecology

January 1980. 400 pages. Clothbound. ISBN: 0-914826-23-9. \$22.00. (ASM Members may purchase this volume, for personal use only, at the special price of \$12.00. Payment must accompany member orders. Orders from overseas must be prepaid before shipment. Standing orders to the series are welcome.)
