*Applied and Environmental Microbiology* (ISSN 0099-2240), a publication of the American Society for Microbiology, 1913 I St., NW, Washington, DC 20006, is devoted to the advancement and dissemination of applied knowledge as well as ecological knowledge, both applied and fundamental, concerning microorganisms. Instructions to authors are published in the January issue each year; reprints are available from the editors and the Publications Office. *Applied and Environmental Microbiology* is published monthly, two volumes per year. The nonmember subscription price is \$145 per year; single copies are \$14. The member subscription price is \$29 (foreign, \$36 [surface rate]) per year; single copies are \$7. Correspondence relating to subscriptions, nonreceipt of journals, reprints, defective copies, availability of back issues, and lost or late proofs, should be directed to the ASM Publications Office, 1913 I St., NW, Washington, DC 20006 (area 202-833-9680).

Claims for missing issues from residents of the United States, Canada, and Mexico must be submitted within 3 months after publication of the issues; residents of all other countries must submit claims within 6 months of publication of the issues. Claims for issues missing because of failure to report an address change or for issues "missing from files" will not be allowed.

Second-class postage paid at Washington, DC 20006, and at additional mailing offices.

POSTMASTER: Send address changes to *Applied and Environmental Microbiology*, ASM, 1913 I St., NW, Washington, DC 20006.

## Certification with the National Registry of Microbiologists

Certification of baccalaureate level microbiologists is by written examination. Pregraduation seniors in the final term of course work may apply for Conditional Registration.

Three new areas of certification now available:

- Clinical and Public Health Microbiology
- Research and Developmental Microbiology
- Consumer Products and Quality Assurance Microbiology

For further information contact:

## ASM CONFERENCE

### Bacterial Periplasmic Transport Systems

27 through 30 November 1983

Shattuck Hotel, Berkeley, Calif.

Discussions on active transport will include:

- periplasmic permeases
- genetic techniques
- molecular mechanisms
- regulation
- protein sequences
- evolutionary relatedness

The preliminary program, preregistration form, and hotel reservation form were published in the June issue of *ASM News*.

For further information contact: Mildred Schwartznau, ASM, 1913 I St., NW, Washington, DC 20006.

The successful new journal from ASM

# Molecular and Cellular Biology

**Editor-in-Chief:**  
Aaron J. Shatkin

**Editors:** Harvey F. Lodish, David J. L. Luck,  
Louis Siminovitch, Paul S. Sypherd

■ *Molecular and Cellular Biology* is devoted to the advancement and dissemination of fundamental knowledge concerning the molecular biology of eucaryotic cells, of both microbial and higher organisms. Papers on cellular morphology and function, genome organization, the regulation of genetic expression including immunoglobulin formation, morphogenesis, and somatic cell genetics are invited for submission.

■ Published monthly. About 1,650 pages a year. Please submit manuscripts to the ASM Publications Office. Members who wish to subscribe should select MCB when they receive the Dues Bill. Nonmembers should send their order and remittance of \$84.00 for 12 issues to: M. Poe, American Society for Microbiology, PO Box 1192, Birmingham, AL 35201.
