

# APPLIED AND ENVIRONMENTAL MICROBIOLOGY

Volume 50

August 1985

No. 2

## GENETICS AND MOLECULAR BIOLOGY

- Recombinant Plasmid Conferring Proline Overproduction and Osmotic Tolerance.** Michael W. Jakowec, Linda Tombras Smith, and Abhaya M. Dandekar .. 441-446
- Production of Cloned Human Leukocyte Interferon by *Bacillus subtilis*: Optimal Production is Connected with Restrained Growth.** Hans-Peter Meyer and Armin Fiechter ..... 503-507
- Plasmid DNA in Strains of *Pediococcus cerevisiae* and *Pediococcus pentosaceus*.** Donald C. Graham and Larry L. McKay ..... 532-534
- Construction of Cloning, Promoter-Screening, and Terminator-Screening Shuttle Vectors for *Bacillus subtilis* and *Streptococcus lactis*.** Jos M. B. M. van der Vossen, Jan Kok, and Gerard Venema ..... 540-542

## PHYSIOLOGY AND BIOTECHNOLOGY

- Cellulolytic Activity of *Clostridium acetobutylicum*.** Song F. Lee, Cecil W. Forsberg, and L. N. Gibbins ..... 220-228
- Electrochemical Classification of Gram-Negative and Gram-Positive Bacteria.** Tadashi Matsunaga and Toshiaki Nakajima ..... 238-242
- Studies on Cellulose Hydrolysis by *Acetivibrio cellulolyticus*.** C. Roger MacKenzie, Doris Bilous, and Girishchandra B. Patel ..... 243-248
- Phenotypic Expression of *Kluyveromyces lactis* Killer Toxin against *Saccharomyces* spp.** Chandra J. Panchal, Cheryl Meacher, Judy Van Oostrom, and Graham G. Stewart ..... 257-260
- Comparative Amperometric Study of Uptake Hydrogenase and Hydrogen Photo-production Activities between Heterocystous Cyanobacterium *Anabaena cylindrica* B629 and Nonheterocystous Cyanobacterium *Oscillatoria* sp. Strain Miami BG7.** S. Kumazawa and A. Mitsui ..... 287-291
- Methane Fermentation of Ferulate and Benzoate: Anaerobic Degradation Pathways.** D. Grbić-Galić and L. Y. Young ..... 292-297
- Destruction of the Outer Membrane Permeability Barrier of *Escherichia coli* by Heat Treatment.** Tetsuaki Tsuchido, Noriaki Katsui, Akira Takeuchi, Mitsuo Takano, and Isao Shibasaki ..... 298-303
- Formation of Filaments by *Pseudomonas putida*.** Rodney H. Jensen and Clifford A. Woolfolk ..... 364-372
- Possible Role of Streptomycin Released from Spore Cell Wall of *Streptomyces griseus*.** István Szabó, Ágnes Benedek, and György Barabás ..... 438-440
- Immobilized *Clostridium acetobutylicum* P262 Mutants for Solvent Production.** Susan T. Largier, Susan Long, Joseph D. Santangelo, David T. Jones, and David R. Woods ..... 477-481
- Occurrence of  $\beta$ -Aminoglutaric Acid in Marine Bacteria.** Susan M. Henrichs and Russell Cuhel ..... 543-545

## FOOD MICROBIOLOGY

- Development of a Minimal Medium for *Clostridium perfringens* by Using an Anaerobic Chemostat.** Steven B. Goldner, Myron Solberg, and Laurie S. Post ..... 202-206

Continued on following page

<b>Activation and Injury of <i>Clostridium perfringens</i> Spores by Alcohols.</b> S. E. Craven and L. C. Blankenship .....	249–256
<b>Inhibition of Germinant Binding by Bacterial Spores in Acidic Environments.</b> John C. Blocher and F. F. Busta .....	274–279
<b>Sensitivity to Bile Salts of <i>Shigella flexneri</i> Sublethally Heat Stressed in Buffer or Broth.</b> Steven B. Tollison and Michael G. Johnson .....	337–341
<b>Incidence of Bacteremia in Stressed and Unstressed Populations of the Blue Crab, <i>Callinectes sapidus</i>.</b> Philip C. Welsh and Ronald K. Sizemore .....	420–425
<b>Comparison of Methods for Isolating <i>Campylobacter jejuni</i> from Raw Milk.</b> J. M. Hunt, D. W. Francis, J. T. Peeler, and J. Lovett .....	535–536
<b>Low-Temperature Production of Urocanic Acid by Spoilage Bacteria Isolated from Mahimahi (<i>Coryphaena hippurus</i>).</b> J. D. Baranowski .....	546–547

#### MYCOLOGY

<b>Fungal Metabolism of <i>tert</i>-Butylphenyl Diphenyl Phosphate.</b> Michael A. Heitkamp, James P. Freeman, David C. McMillan, and Carl E. Cerniglia .....	265–273
<b>Isolation and Characterization of Two New Fusaric Acid Analogs from <i>Fusarium moniliforme</i> NRRL 13,163.</b> H. R. Burmeister, M. D. Grove, R. E. Peterson, D. Weisleder, and R. D. Plattner .....	311–314
<b>Indirect Enzyme-Linked Immunosorbent Assay for the Mycotoxin Zearalenone.</b> Ming-Tsung Liu, Bhanu P. Ram, L. Patrick Hart, and James J. Pestka ....	332–336
<b>Effect of Cleaning, Milling, and Baking on Deoxynivalenol in Wheat.</b> H. K. Abbas, C. J. Mirocha, R. J. Pawlosky, and D. J. Pusch .....	482–486
<b>Radioimmunoassay of Ochratoxin A in Barley.</b> Dominique M. Rousseau, Guido A. Slegers, and Carlos H. Van Peteghem .....	529–531
<b>Comparison of Media for the Isolation of <i>Cryptococcus neoformans</i>.</b> Terry A. Racicot and Glenn S. Bulmer .....	548–549
<b>Toxigenic Potential of Some <i>Fusarium</i> Isolates from Southeast Asia.</b> Roy Greenhalgh, J. David Miller, Gordon A. Neish, and H. Bruno Schiefer ....	550–552

#### APPLIED ENVIRONMENTAL AND PUBLIC HEALTH MICROBIOLOGY

<b>Inactivation of Norwalk Virus in Drinking Water by Chlorine.</b> Bruce H. Keswick, Terry K. Satterwhite, Philip C. Johnson, Herbert L. DuPont, Sandy L. Secor, Jo Ann Bitsura, G. William Gary, and John C. Hoff .....	261–264
<b>Enteroviruses in Sludge: Multiyear Experience with Four Wastewater Treatment Plants.</b> Vincent V. Hamparian, Abramo C. Ottolenghi, and John H. Hughes .....	280–286
<b>Reduced Virulence of <i>Yersinia enterocolitica</i> by Copper-Induced Injury.</b> Ajaib Singh, Mark W. LeChevallier, and Gordon A. McFeters .....	406–411
<b>Changes in Virulence of Waterborne Enteropathogens with Chlorine Injury.</b> Mark W. LeChevallier, Ajaib Singh, Donald A. Schiemann, and Gordon A. McFeters .....	412–419
<b>Evidence for Separate Adhesion Mechanisms for Hydrophilic and Hydrophobic Surfaces in <i>Vibrio proteolytica</i>.</b> John H. Paul and Wade H. Jeffrey .....	431–437
<b>Microbial Mineralization of Ring-Substituted Anilines through an <i>Ortho</i>-Cleavage Pathway.</b> Josef Zeyer, Alain Wasserfallen, and Kenneth N. Timmis .....	447–453
<b>Survival and Enumeration of the Fecal Indicators <i>Bifidobacterium adolescentis</i> and <i>Escherichia coli</i> in a Tropical Rain Forest Watershed.</b> Martha Carrillo, Eddie Estrada, and Terry C. Hazen .....	468–476

<b>Droplet Enrichment Factors of Pigmented and Nonpigmented <i>Serratia marcescens</i>: Possible Selective Function for Prodigiosin.</b> Scott R. Burger and J. W. Bennett.....	487-490
<b>Membrane-Associated Viral Complexes Observed in Stools and Cell Culture.</b> Fred P. Williams, Jr.....	523-526
<b>Ethylene Dibromide Transformation under Methanogenic Conditions.</b> Edward J. Bouwer and Perry L. McCarty.....	527-528

#### GENERAL MICROBIAL ECOLOGY

<b>Potential Importance of Fish Predation and Zooplankton Grazing on Natural Populations of Freshwater Bacteria.</b> Bo Riemann.....	187-193
<b>Marine Ammonia- and Nitrite-Oxidizing Bacteria: Serological Diversity Determined by Immunofluorescence in Culture and in the Environment.</b> B. B. Ward and A. F. Carlucci.....	194-201
<b><i>Treponema saccharophilum</i> sp. nov., a Large Pectinolytic Spirochete from the Bovine Rumen.</b> Bruce J. Paster and Ercole Canale-Parola.....	212-219
<b>Muramic Acid Measurements for Bacterial Investigations in Marine Environments by High-Pressure Liquid Chromatography.</b> Toru Mimura and Jean-Claude Romano.....	229-237
<b>PA-1, a Versatile Anaerobe Obtained in Pure Culture, Catabolizes Benzenoids and Other Compounds in Syntrophy with Hydrogenotrophs, and P-2 plus <i>Wolinella</i> sp. Degrades Benzenoids.</b> Sudhakar Barik, W. J. Brulla, and M. P. Bryant.....	304-310
<b>Microbial Decomposition of Cellulose in Acidifying Lakes of South-Central Ontario.</b> Judith F. M. Hoeniger.....	315-322
<b>Models for the Kinetics of Biodegradation of Organic Compounds Not Supporting Growth.</b> Steven K. Schmidt, Stephen Simkins, and Martin Alexander....	323-331
<b>Effects of Chemical Speciation on the Mineralization of Organic Compounds by Microorganisms.</b> E. L. Madsen and Martin Alexander.....	342-349
<b>Enumeration, Isolation, and Characterization of N<sub>2</sub>-Fixing Bacteria from Seawater.</b> Mary Lou Guerinot and Rita R. Colwell.....	350-355
<b>Microbiology and Ration Digestibility in the Hindgut of the Ovine.</b> Sherry M. Lewis and Burk A. Dehority.....	356-363
<b>Oxygen Responses and Mat Formation by <i>Beggiatoa</i> spp.</b> Mogens M. Møller, Lars P. Nielsen, and Bo B. Jørgensen.....	373-382
<b>Microbial Penetration through Nutrient-Saturated Berea Sandstone.</b> Gary E. Jenneman, Michael J. McInerney, and Roy M. Knapp.....	383-391
<b>Incidence of <i>Vibrio cholerae</i> and Related Vibrios in a Coastal Lagoon and Seawater Influenced by Lake Discharges along an Annual Cycle.</b> Esperanza Garay, Amilcar Arnau, and Carmen Amaro.....	426-430
<b>Carbon Mineralization in Acidic, Xeric Forest Soils: Induction of New Activities.</b> Robert L. Tate III.....	454-459
<b>Growth Kinetics of Attached Iron-Oxidizing Bacteria.</b> Paul L. Wichlacz and Richard F. Unz.....	460-467
<b>Microbial Manganese Reduction by Enrichment Cultures from Coastal Marine Sediments.</b> David J. Burdige and Kenneth H. Nealson.....	491-497
<b>Sulfate-Reducing Bacteria: Principal Methylators of Mercury in Anoxic Estuarine Sediment.</b> G. C. Compeau and R. Bartha.....	498-502
<b>Bacterial Biomass, Metabolic State, and Activity in Stream Sediments: Relation to Environmental Variables and Multiple Assay Comparisons.</b> T. L. Bott and L. A. Kaplan.....	508-522

Continued from preceding page

MICROORGANISM-PLANT INTERACTIONS

<b>Rates of Drying and Survival of <i>Rhizobium meliloti</i> Strains during Storage at Different Relative Humidities.</b> Patrice Mary, Daniel Ochin, and Roger Tailliez	207–211
<b>Relationship between Rapid, Firm Adhesion and Long-Term Colonization of Roots by Bacteria.</b> Douglas W. James, Jr., Trevor V. Suslow, and Katherine E. Steinback .....	392–397
<b>Inoculant Production with Diluted Liquid Cultures of <i>Rhizobium</i> spp. and Autoclaved Peat: Evaluation of Diluents, <i>Rhizobium</i> spp., Peats, Sterility Requirements, Storage, and Plant Effectiveness.</b> P. Somasegaran .....	398–405
<b>Determination of the Hydrogenase Status of Individual Legume Nodules by a Methylene Blue Reduction Assay.</b> Grant R. Lambert, F. Joe Hanus, Sterling A. Russell, and Harold J. Evans .....	537–539

Date of Issue: 6 August 1985
