Bioreactor for the Study of Defined Interactions of Toxic Metals and Biofilms

KE MING HSIEH, LEONARD W. LION, AND MICHAEL L. SHULER

Schools of Chemical Engineering and Civil and Environmental Engineering, Cornell University, Ithaca, New York 14853

Volume 50, no. 5, p. 1155–1161. The discussion of the interaction of the test organism, *Pseudomonas atlantica*, with the subject metal, lead, cited R. W. Harvey, Ph.D. thesis, Stanford University, 1981. The following two articles will augment the discussion: R. W. Harvey, L. W. Lion, L. Y. Young, and J. O. Leckie, *J. Mar. Res.* **40**:1201–1211, 1982, and R. W. Harvey and J. O. Leckie, *Mar. Chem.* **15**:334–344, 1985.
