Suppressive Effect on Activation of Macrophages by *Lactobacillus casei* Strain Shirota Genes Determining the Synthesis of Cell Wall-Associated Polysaccharides

Emi Yasuda, Masaki Serata, and Tomoyuki Sako

Yakult Central Institute for Microbiological Research, Yaho, Kunitachi, Tokyo 186-8650, Japan

Volume 74, no. 15, p. 4746–4755, 2008. Page 4749, column 2: The following should appear as the last paragraph in Materials and Methods:

Nucleotide sequence accession number. The nucleotide sequence of the *L. casei* Shirota gene cluster involved in the biosynthesis of high-molecular-mass cell wall polysaccharides has been deposited in the GenBank database under accession number AB470649.
