APPLIED MICROBIOLOGY

VOL. 8, NO. 2

MARCH, 1960

CONTENTS

SCIENTIFIC ARTICLES

- Effect of Chlortetracycline on Vitamin B₆ and Amino Acid Decarboxylase in Bacteria from the Alimentary Tract of the Chick
✓ Yeasts Isolated from Sugar Cane and Its Juice During the Production of Aguardente de Cana
Persistence of Lactobacilli and Streptococci in the Bovine Rumen During Penicillin Administration
Nutrition and Physiology of *Nitrobacter agilis*
Separation of Microorganisms by Flotation
I. Development and Evaluation of Assay Procedures
II. Flotation of Spores of *Bacillus subtilis* var. *niger*
Some Characteristics of Proteolytic Enzymes from *Pseudomonas fluorescens*
✓ Microbiology of Shellfish. Bacteriological Study of the Natural Flora of Pacific Oysters (*Crassostrea gigas*)
✓ Survival of *Salmonella typhimurium*, *Staphylococcus aureus*, and *Streptococcus faecalis* Frozen in Simplified Food Substrates
✓ Enterococcus: Coliform Ratios in Frozen Chicken Pies

MICROBIOLOGICAL PROCESS DISCUSSIONS

- Some Considerations of Bioengineering from a Microscopic Viewpoint
Bioengineering and Fermentation
- RICHARD DONOVICK..... 117
ELMER L. GADEN, JR..... 123

GENERAL STATEMENT

APPLIED MICROBIOLOGY is designed for the publication of studies orientated toward the application of microbiological sciences to the fields of industry, foods, sanitation, agriculture, and other areas involving the use or control of microorganisms, with the exception of the microbiological aspects of animal and plant disease. The papers must be concerned primarily with the microbiology or microbiological biochemistry of the processes under consideration or with engineering aspects which influence microbiological processes.

INSTRUCTIONS TO AUTHORS

Instructions to authors published in the *Journal of Bacteriology* apply to manuscripts submitted to *Applied Microbiology*, with the following exceptions:

Correspondence—Manuscripts should be submitted in duplicate to H. B. Woodruff, Editor, *Applied Microbiology*, MERCK & CO., Inc., Rahway, N. J. All material should be sent by first class mail in flat form—not folded or rolled. *Applied Microbiology* cannot assume responsibility for manuscripts.

General Policy—Manuscripts are accepted, subject to editorial review, from all who are interested in the field of microbiology. Three classes of articles are published: general scientific articles which report results of original research; Microbiological Process Reports, which are reviews of a particular subject; and Microbiological Process Discussions, which are summaries of an individual author's experiences in a particular field. Authors are asked to limit manuscripts since it may be necessary to charge for space in excess of ten printed pages. Except for good reasons, microorganisms should be designated by the names appearing in *Bergey's Manual of Determinative Bacteriology*, 7th Edition (1957) or Ainsworth & Bisby's *A Dictionary of the Fungi*, 4th Edition (1954), and the rules of nomenclature presented in the *International Code of Nomenclature of Bacteria and Viruses* (1958) should be followed. The name and address of the manufacture must be provided in

footnote form for all products for which a trademark is used.

Reprints—Reprints are not supplied unless ordered and purchased by the author. A table showing cost of reprints and an order slip will be sent with the proof.

INFORMATION FOR SUBSCRIBERS

APPLIED MICROBIOLOGY is issued bimonthly (January, March, May, July, September, November) one volume per year.

Correspondence concerning business matters should be addressed to The Williams & Wilkins Company, Publishers of Scientific Books and Periodicals, 428 E. Preston St., Baltimore 2, Maryland, U. S. A.

Subscription price \$10.00 per volume. Foreign postage is \$.75 per volume. Canadian postage is \$.25 per volume. Members of the Society of American Bacteriology may receive *Applied Microbiology* as part of their dues. Single numbers, when available, are \$2.00, plus \$.25 postage outside U.S.A.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received the pro rata value of such numbers will be refunded to the subscriber.

To avoid a break in your series, subscriptions should be renewed promptly. The publisher cannot guarantee to supply back issues on belated renewals.

THE WILLIAMS & WILKINS COMPANY
Baltimore 2, Md., U. S. A.
