COVER IMAGE

Cover photograph: Transplantation of lettuce, *Lactuca sativa* "Little Gem" (eastern Scotland, United Kingdom, July 2017), from nursery-grown seedlings in peat-based compost plugs, using an adapted tractor-drawn trailer. Production of leafy greens that are eaten raw incorporates safety assurance steps (e.g., for irrigation water or manure application) to reduce the microbial hazards, such as the foodborne pathogen *Escherichia coli* O157:H7.
